New Yorks Whitewashed and Incidentally Prop Their Third Straight Game to Chicago Boston Beaten at Pittsburg and Phila-delphia Takes Another Ball at Cincinnati.

The Booklyns, with Kennedy in the box, won another close game at St. Louis yesterday which temporarily intrenched the Champions in second place. The New Yorks were not only heated for the third consecutive time by the Chicagos but were also whitewashed. The Philadelphias took their third ball from the Cincinnatis, and have a strong lead. Boston dropped another game at Pittsburg and still brings up the tail end. The results: Brooklyn, 3: St. Louis, 2.

ST. LOUIS, May 14—Luck was with the Superbas to-day and they captured the third game of the series. The home team played an error, ess game, while Kelley's high throw to first was responsible for one of the runs secured by the Cardinals. Powell pitched magnificently, Robinson receiving him, the first time they have played together. In the second inning Keeler tried to steal a base but was thrown out. Robinson to short, Wallace jumping high in the air and catching the sphere with his left hand. The score:

PITTSBURG, May 14.—PITTSBURG batted out another victory to-day, Dineen, Boston's best worker at present, being the victim. Dineen more than held his own until the seventh when Beaumont's single, Williams's double and Fred Clarke's homer scored three runs. In the third a fight between F. Clarke and Tenney was imminent. Clarke accidentally solked Tenney and was running toward right field when the first baseman hit him on the shoulder with the ball. Clarke returned, but players and a policeman prevented further trouble. Later both Clarke and Tenney apologised. The score.

THE WITHERS MILE COURSE. Pastest Time of the Eastern Circuit Made by The Kentuckian at Morris Park-Indian Fairy Also Shakes Up the Figures in Her Dash Down the Eclipse Course-Entries.

VOTER AGAIN DEFEATED.

QUEEN OF SONG OUTRUNS HIM OVER

The absence of stake features at Morris Park yesterday was more than counterbalanced by the glorious outing weather and a card that furnished ample material for speculation. For an "off day" the attendance was well up to the average, but visitors who took chances in the ring gathered in little more than a free Turkish bath, as only one favorite pulled through. The tracks were in record-breaking shape and some exceptional times were recorded.

Eight withdrawals in the first race left ten good sprinters to try conclusions down the Eclipse course. Of these, Pupil figured the best on his two-year-old form, and he was played down to 9 to 5. There was also a pronounced plunge on McMeekin, while Indian Fairy was unaccountably overlooked, despite the fact that she had been heralded broadcast

the fact that she had been heralded broadcast as one of the fastest racing machines that ever came out of the West. It was Indian Fairy all the way after the flag fell to a good start and she galloped home a winner by four lengths in the fastest time made over the course during the meeting. McMeekin ran a fine race for his first time out, and beat Belle of Lexington a head for the place. Pupil ran disappointingly and finished slxth.

Fifteen maiden two-year-olds answered the bugle call for the second race, but the talent seemed to regard the problem as easy, and all Green, with Maher up, and Prince of Melrose; piloted by O'Connor, were played as if the other thirteen were made of sawdust. King Pepper, a diashing son of Kantaka, was allowed to run loose at 10 to 1, and after leading all the way he won by half a length. Maher kept close up with All Green and took the place by a neck from Elkhorn, who beat The Puritan a length. Smith on the 100-to-1 shot, Callear, behaved badly at the post and was set down for two days.

All the jookeys in the third race were appren-

Bighborn, who beat the following behaved badly at the post and was set down for two days.

All the jookeys in the third race were apprentices, but the plungers were as confident as ever and sent King Bramble to the post favorite. Autumn also had a strong following, who played him from 6 to 1 to 7 to 2, although it was his first trip as a four-year-old. Manitoban was steadily played throughout and he landed the money in a gallop two lengths ahead of Rinaldo, who beat the favorite a length and a half. Fonsolee came within a neck of landing the short end of the purse.

Some horses above the average sprinting class appeared in the big field of thirteen for the fourth race, over the last seven furious of the Withers mile. Kriss Kringle ruled a steady favorite and when Oliver Mac and The Corinthian got tired fighting for the lead the Springbok gelding drew away and won easily by four lengths. Sparrow Wing was the same distance clear of Bon Jour who came from the rear in time to beat the Corinthian a head.

The fifth event, which was for four-year-olds and upward, over the Withers mile, dwindled down to a three-horse race and the plungers formed two solid battalions, one of which played Approval while the other poured the money in on Wait Not. When the speculative fever subsided the dollars of some wise people were put up on The Kentuckian, whose price was promptly cut from 6 to 1 to 4 to 1. The outsider led all the way and not only won decisively, but tied the best time ever made over the course. The official fractional flaures were: Furlons, 0.33, quarter, 0.27; three furlons, 0.37 1-5; half mile, 0.50; five furlongs, 1.02 2-5; six furlongs, 1.14 4-5; full distance, 1.394. since he reached here with the Champions on Saturday morning, but there was a string on the player. President Freedman of the New York iclub wanted Robison to let him have Cross and the St. Louis magnate promised to hand over the goods provided he could secure the man he was after to take Cross's place. When McGraw reported on Thursday morning Robison wired a query to Freedman asking if he wanted the player. Knowing how much in need the New York club is of a third baseman at this time he resolved to keep his word, but after four days passed without his receiving a line in response Cross was sold to the Brooklyn club. The new Superba will play his first game with the Champions in Wednesday's game in Cincinnati.

Tom McCarthy, who was interested in the proposed Boston club of the new American Association, which did not materialize, has purchased the interest of his former partner in the Charles River Park. Immediately after Queen of Long covered the same route in 140 and surprised the plungers by beating Voter two lengths. The Keene candidate carried his 139 pounds well for six furlongs, and that seems to be his distance just now. Summary:

a match, of if a one-day match at any time, the inside shall be empowered to declare its inning at an end.

3. The side which leads by 150 runs in the three-days' match, by 100 runs in a two days' match, and by seventy five runs in one day, shall receive the option of calling on the other side to follow its inning.

The last rule will have a most important bearing upon the game. Formerly, in a one day's match, the side secoring sixty runs less than its opponents followed its inning, whether the other team dealred it or not. The side which goes in second has now to score seventy five runs less and then the follow on is only at the option of the other team. As all cricket games in this country are played under the rules of the M. C. C. these changes will go into effect immediately.

At a meeting at which amendments were adopted, it was announced that the M. C. C. comprises no less than 4,662 members. Chacornae May Never Race Again James R. Keene's highly prized three-yearold Chacornae may have ended his racing career through an accident in the Withers Stakes last Saturday at Morris Park. How he injured himself is a mystery. The gelding made a gallant struggle with Mesmerist for about half a mile when he suddenly stopped as about half a mile when he suddenly stopped as if hit on the head. He struggled on gamely, however, to the end of the race where he pulled up sore and strained. Powerful liniments were used Saturday night, but Chacornac grew worse. Dr. Snepherd was called in on Sunday morning and made a thorough examination. He found that the Futurity winner had injured his spine in some way, and said that the coit may possibly never race again.

Chacornac was bred at Brookdale by the late Col. Thompson. He was bought by Trainer

NEWS OF THE WHEELMEN.

EST AT VALLEY STREAM. Brown Finishes 600 Miles and Feels Good -Is Expected to Complete His Task of Covering 2.000 Miles and to Break Rec ords -Mrs. Boyne Also Making Centuries. The long-distance road-riding contests for ecords is now on in earnest at Valley Stream. Will A. Brown, who started on Saturday to cover 2,000 miles, is still at it and he has been joined by a woman, who wants to surpass the performance of Mrs. Jane Lindsay, who last year rode seven continuous centuries within the limit of eighty-four hours. Her name i Mrs. E. R. Boyne of New York, a member of the Century Road Club, with a record of many single, double and triple centuries. Never before, however, has she started to excel all other performances by members of her sex In fact, Mrs. Boyne does not declare that she s trying to do so, but it is generally accepted that she is. She started at 12:30 o'clock on Sunday afternoon to ride over the triangular course in company with Brown and his pacemakers, and at 6:30 o'clock yesterday morning had finished 200 miles. She then slept for six hours and set out again. At 3 o'clock yesterday afternoon Mrs. Boyne had finished 225 miles. A Mrs Hickey has been stopping at the hotel which she makes her headquarters ever since she started and has been exercising the functions of a trainer. This arrangement led to a suspicion that Mrs. Boyne was after the women's records and it was said by riders at Valley Stream that she had confessed as much. A reporter of THE SUN asked Mrs. Boyne how many centuries she intended to do. She answered cheerily: "Oh, I can't tell yet; I guess I will go a quint or so." The fact accepted by her pacemakers is that she does not want to declare her intent, so as not to have the reputation of failing should she decide to quit at any time. Yesterday a number of Century Road Club riders appeared on the scene as distinct pacemakers for Mrs. Boyne, and she is never without her own attendants, although she wheels with Brown and his companions.

Mrs. Boyne is a woman of slight build, and is using a 26-pound wheel with a 77 gear. At 3:11 o'clock yesterday afternoon Brown finished his six hundredth mile. He was then looking well and was cheerful and spry. He had fully rallied from his indisposition of Sunday, when it was feared he would break down. A Brooklyn physician who goes out to see Brown every day, examined him after the finish of his sixth century and found that his pulse was 78, and his temperature normal. He then weighed 151 pounds, which was one pound less than what he weighed at the start. Charles Mock of the C. R. C., who is acting as trainer for Brown, said that he would undoubtedly complete his task of 2000 miles and thereafter. Brown is using two chainless wheels, one geared to 80 and the other to 96. The course being used this year differs from the one of last searson. It has been extended west to Springfield so as to make it twenty-five miles to a lap instead of twenty. Otherwise it is the same. Brown's time for each century up to the sixth is as follows: well and was cheerful and spry. He had fully same. Brown's the Min. | Miles. Hrs ... 31 400 ... 31... ... 37 500 ... 39... ... 48 600 ... 51... Miles.

Thus far he has had 4 hours and 25 minutes sleep, his first nap being on Sunday morning and his second one two hours, occurring vesterday. He is adhering to the yearstable and terday. He is adhering to the vegetable and truit diet planned for him. In the first lap of his sixth century he rode a mile in 2 minutes 38 seconds. The fastest time for a lap of 25 miles is 1 hour 13 minutes, something better than a three-minute cilp. Most of his pace has been single riders, and the largest machine he has had is a triplet. His time for the distance travelled is close to the record, and as he holds the 1,000-mile mark, he will not seek to establish new fagures until he starts on the second thousand. This is the longest ride of the kind ever attempted here.

The statement accredited to a Brooklyn rider who was arrested at Babylon yesterday for riding on a sidepath without a license tag was received with astonishment by L. A. W. leaders here yesterday. Ketcham, who was arrested is reported as saying that he is a League member and will seek the aid of the organization to reave his right to ride on the path with only a

The second bout brought together Kid McFadden of California and Kid Chadwick of Boston. Chadwick took the place of Hugh McFadden of Brooklyn. Chadwick and McFadden were to have fought ten rounds at 115 pounds. Before half a round had been finished the referee stopped hostilities and awarded the decision to McFadden. An extra "go" of ten rounds was put on. The principals were Kid Walsh and Jimmy Clark, both of Brooklyn. They mei at eatchweights, Clark knocked his man out in the third round with smashes in the stomach.

Sweeney was all over Morrisson in the first round, but he cenid not land accurately. In the second they mixed it up vigorously and "Chp" gave as much as he received. The latter towed the scratch for the third rather fatigued. He was game, though, and exchanged blow for blow. He could not check Sweeney, however, who kept boring in all the time. Patsy floored Morrisson with a right, and when the Cincinnati lad arose he put him down again with a left hook. The last fall was enough for Morrisson, who was counted out.

economical management of the regatta held last Labor Day at Philadelphia resulted in a long-standing deficit of \$132.50 being wiped off the books and a small balance substituted. The efforts of the Philadelphia committee that managed the regatta were suitably acknowledged.

It was the sentiment of the delegates that the section undertaking to hold the regatta should assume all the expenses, and in return should receive the entrance fees of the crews. The many important rowing fixtures already scheduled for the Metropolitan district rendered the local clubs rather lukewarm about incurring additional responsibilities, and in all probability the bid of some city other than New York will be forthcoming and accepted. accepted.

INTERNATIONAL CHESS.

Leading Experts of the World to Begin Play at Paris To-day.

This afternoon time will be called for the first round of the International Chess Masters' tournament at the Grand Cercle et Cercle des Echees de Paris, 16 Boulevard Montmartre. There is still much uncertainty about everything pertaining to the contest Neither the code of rules nor the number of entries have been fixed. The committee has decided to leave the framing of the rules to the players. The other day M. Rosenthal, the French expert, wrote to L. Hoffer at London that Lasker had sent his entry, and that all the leading experts of the world would participate in the tournament. Marco wrote to The Sux from Viennathat Alapin, Schlechter, Marcozy and he would represent Austria-Hungary. France, it was stated, would have Janowski, Didier, Rosen and Billecard From London contemporaries it was learned that Blackburne, Burn, Mason, Mortimer, Teichmann and Lee would be present, but not a word could be learned about the Russan and German competitors.

Play will take place on Mondays, Tuesdays, Thursdays and Fridays of each week, while Wednesdays and Saturiays will be devoted to the finishing of adjourned or drawn games from previous rounds. Flay will begin on each day at 2 o'clock in the afternoon and will be continued until 12 o'clock midnight, with two hours' interruption at 9 o'clock.

crew of eleven men for Cornelius Vanderbilt's new 70-foot sloop yacht Rainbow arrived here this morning at 90 clock from New York by the way of Fall R ver. The entire crew is composed of Englishmen, just such a sturdy let as was on the tup challenger Snamrock. All of them have had considerable experience at home on fast racing yachts. The men went immediately to the Herreshoff's yard and got their first view of the Rainbow. They boarded the craft and after stowing their dunnage below donned their working suits and lent a hand at fitting up their living quarters in the forecastle. They were unanimous in their approval of the Rainbow's fine lines.

The craft is nearly concleted and has been rigged for nearly a week, but her sails will not be bent for several days yet. Capt.
